SUMMARY

Results-driven Full Stack Developer with hands-on experience building scalable, production-ready web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Python/Django. Skilled in REST API development, JWT authentication, real-time systems with Socket.IO, and responsive UI design. Proven ability to architect multi-role systems, integrate third-party APIs, and deploy applications end-to-end on cloud platforms. Passionate about solving real-world problems through clean, maintainable code.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, Django, Django REST Framework, Socket.IO, JWT Authentication, REST APIs

Databases: MongoDB (Atlas), PostgreSQL (Neon), MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Figma, Vercel, Render, MongoDB Atlas

Integrations: Razorpay Payment Gateway, Google Maps API, Socket.IO, EmailJS, Axios

Concepts: CRUD Operations, OOP, Data Structures, API Integration, Debugging

WORK EXPERIENCE

INTELAIX CONSULTING SERVICES PVT LTD

Bengaluru, India

Software Developer Intern

May 2025 – Sep 2025

- Developed and maintained backend REST APIs using Django and Django REST Framework for SnagPro, a Construction Snagging and Inspection Management System.
- Built modules for project management, inspection tracking, defect (snag) management, contractor assignment, and staff management.
- Integrated JWT Authentication for secure role-based access control across admin and staff roles.
- Connected React.js frontend with Django backend APIs for smooth, responsive user interaction.
- Worked with PostgreSQL (Neon) for database management and optimized SQL queries to improve application performance.
- Implemented image upload for defect documentation and EmailJS-powered contact and demo request form.
- Deployed frontend on Vercel and backend (Django + Gunicorn) on Render; application live at snagpro-frontend.vercel.app.
- Collaborated with team following Agile practices and improved overall code reliability, responsiveness, and quality.

PROJECTS

BLINKIT CLONE – FULL STACK QUICK COMMERCE PLATFORM

2025 – 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Socket.IO, Tailwind CSS, Razorpay, Google Maps API

Live Project Links : [Customer Panel](#) | [Picker Panel](#) | [Delivery Panel](#)

- Built a production-grade quick commerce grocery delivery platform inspired by Blinkit and Zepto using the MERN stack.
- Architected a multi-role system with four dashboards — Customer, Admin, Picker, and Delivery Partner — each with tailored workflows and JWT role-based access control.
- Implemented real-time order lifecycle management using Socket.IO: order placement, picker assignment, dispatch, live GPS tracking, and delivery confirmation.
- Integrated Razorpay payment gateway supporting both COD and online payment modes with COD settlement tracking in the Admin panel.
- Integrated Google Maps API for real-time delivery tracking with live GPS updates visible on the customer interface.
- Developed customer features including product browsing, category filtering, search, cart management, order history, and responsive UI.
- Built admin features including inventory management, product CRUD, order monitoring, analytics dashboard, and delivery monitoring.
- Deployed all four frontend panels on Vercel and backend on Render with MongoDB Atlas as the cloud database.

CONSTRUCTION SNAGGING AND INSPECTION MANAGEMENT SYSTEM

Tech Stack: React.js, Django, Django REST Framework, PostgreSQL (Neon), JWT, Tailwind CSS, EmailJS | **Live Project Link :** [Frontend Demo](#)

- Designed and developed a full-stack construction snagging and inspection management web application during internship at Intelaix Consulting Services.
- Built a Company Admin Dashboard with modules for staff management, project tracking, inspection management, snag defect management, and contractor assignment.
- Implemented secure JWT-based authentication with role-based access control for admin and staff roles.
- Developed image upload functionality for defect documentation and real-time analytics dashboard with Glassmorphism UI using Tailwind CSS.
- Integrated EmailJS-powered contact form enabling potential clients to request demo credentials directly via email.
- Deployed frontend on Vercel and backend on Render with Neon PostgreSQL as the cloud database.

EDUCATION

DAYANANDA SAGAR COLLEGE OF ENGINEERING

Master of Computer Applications (MCA)

CGPA: 8.83

Bengaluru, India

2024 – 2025

VEERASHAIVA DEGREE COLLEGE

Bachelor of Commerce – Computer Applications (B.Com CA)

CGPA: 7.35

Kalaburagi, India

2019 – 2022

CERTIFICATIONS & TRAINING

- Java & J2EE – NIIT
- Oracle Database – NIIT
- HTML, CSS, JavaScript – NIIT
- MS Office (Word, Advanced Excel), Tally ERP 9 – SSCEI
